

【尿液檢驗】採檢說明

1. 收集尿液前清潔尿道周圍。
2. 收集尿液時先將前段尿排出，再以採檢容器接取中段尿液。
3. 檢體應儘速送檢，如無法立即送檢請置於4°C冰箱且不得超過2小時。

Clean genital area before urine sample collection.

Allow first urine flow to go into the commode.

Catch the "mid-stream" of the urine in the sterile container.

Transport the specimen to the lab as soon as possible. If delay is necessary, specimen may be kept in your refrigerator up to 2 hours.
